

SHOKHZOD PRIMOV

FullStack Developer · React / Next.js / Node.js / NestJS / Express.js / TypeScript / JavaScript

Tashkent, Uzbekistan · +998 77 550 76 13 · github.com/shoxzods

SUMMARY

FullStack developer with 6 months of commercial development experience. Focused on building responsive, high-performance interfaces with Next.js and TypeScript, styling with SCSS, managing state with Zustand, developing backend services with Node.js and Express/NestJS, and integrating REST APIs. Experienced implementing Figma designs pixel-accurately and deploying projects on Vercel/Netlify.

FRONTEND SKILLS

Markup	HTML5 — responsive and semantic markup
Styling	CSS3, SASS/SCSS, Tailwind CSS, Styled-Components
Languages	JavaScript (ES6+), TypeScript
Browser APIs	DOM, BOM
React	React (JSX/TSX), optimization hooks useReducer(), useCallback()
Routing	Next.js, React Router DOM
State Management	Redux Toolkit (RTK), Zustand, Context API
API Integration	Axios, RTK Query (REST API)
Internationalization	i18next
Charts	Chart.js / react-chartjs-2, Google Charts, Plotly.js
Form Validation	Zod, Yup
UI Libraries	Material UI, Ant Design, Web Awesome
Design	Figma (pixel-accurate implementation)
Deployment	Vercel, Netlify
Documentation	Swagger, Postman
Operating Systems	Linux (Ubuntu), Windows
Hardware	Basic understanding of computer hardware
Tools	Git, GitHub, Vite

BACKEND SKILLS

Runtime	Node.js
Frameworks	Express.js, NestJS
Databases	PostgreSQL (ORM: Prisma), MongoDB (Mongoose), Redis
Validation	Zod, Joi, class-validator
Authorization	JSON Web Token (JWT), Session-based auth, OAuth
File Upload	File upload handling (Multer)
Environment	dotenv (.env config)
CORS	cors
Hashing	Password hashing (bcrypt)
Templating	EJS, Handlebars (HBS)
Tools	Nodemon
Error Handling	Centralized error handling

DEVOPS & DEPLOYMENT

Containerization	Docker
CI/CD	CI/CD pipelines, GitHub Actions
Web Server	Nginx
Cloud	AWS

PRODUCTS SHIPPED

CRM «Najot Education» — Education-center CRM system

github.com/shoxzods/najot-education

- Built the interface for managing students, groups and courses
- Implemented authentication and an admin panel
- Integrated REST API, form validation and responsive layout
- Built the backend with NestJS and Node.js, using Prisma ORM for PostgreSQL
- Implemented JWT authentication and password hashing for secure access
- Used Redis for caching and Multer for file uploads

Stack: Next.js (TSX) · TypeScript · SCSS · Axios · Zustand · Zod · NestJS · Node.js · Prisma · JWT · Redis · Multer

EXPERIENCE

FullStack Developer

Najot Education · 6 months

- Developed and maintained user interfaces with Next.js (JSX/TSX)
- Integrated REST APIs using Axios and managed state with Zustand
- Implemented form validation (Zod, Yup) and internationalization (i18next)
- Built charts and analytics views (Chart.js, Google Charts, Plotly.js)
- Built and maintained backend services with NestJS, Node.js, and Prisma ORM (PostgreSQL)
- Implemented JWT authentication, Redis caching, and file uploads with Multer
- Deployed projects on Vercel and Netlify; worked with Git/GitHub

EDUCATION

Tashkent University of Information Technologies named after Muhammad al-Khwarizmi (TUIT)

Bachelor's degree

Najot Ta'lim

FullStack Development course — 10-month intensive

LANGUAGES

Uzbek — Native

Russian — C1

English — B2
